

Pacific Natural®*

Fresh Fish Fertilizer

DO NOT STORE DILUTED MATERIAL in a sealed container, or in irrigation or drip systems. Microbial growth will occur that can cause odor, gassing, clogging of irrigation systems and render the product ineffective.

GUARANTEED ANALYSIS:	
Total Nitrogen (N):.....	2%
2% Water Soluble Nitrogen	
Available Phosphate (P ₂ O ₅):.....	3%
DERIVED FROM: Hydrolyzed Fish, Phosphoric Acid (as a stabilizer)	
Grade: 2-3-0	

CAUTION: HARMFUL IF SWALLOWED, AVOID CONTACT WITH EYES, OPEN CUTS OR SORES. KEEP OUT OF THE REACH OF CHILDREN, WASH HANDS AFTER USE. BUYER ASSUMES ALL RESPONSIBILITY FOR THE SAFE USE OF THIS PRODUCT IN ACCORDANCE WITH THE DIRECTIONS

Application Instructions:

Concentrate must be mixed well or agitated before dilution with water to ensure a homogenous mix.

A per season application rate of 10 to 20 gallons concentrate per acre is recommended for most crops.

After Harvest Application:

- Dilute 1 part Pacific Natural®* to minimum 10 parts water at a rate of 5 to 10 gallons concentrate per acre, depending on soil fertility.

MEASUREMENT

- Net Weight: 275 US Gal / 1040 L (2365 lbs / 1075 kg)
 55 US Gal / 208 L (473 lbs / 215 kg)
 5 US Gal / 19 L (43 lbs / 19.5 kg)
 2.5 US Gal / 9.5 L (22 lbs / 10 kg)

* Naturally-based nutrients from the sea. The phosphoric acid used to stabilize the material is not naturally derived.

Foliar Application:

- Dilute 1 part Pacific Natural®* to 50 parts water.
- Spray after sunset or in the coolest part of the day.
- Recommended rate is 5 gallons per acre (undiluted) per application. Runoff is beneficial to the soil.
- Product can be mixed with other fertilizers, minerals and control chemicals but should be jar tested first to ensure compatibility.

Soil Application:

- Dilute 1 part Pacific Natural®* to minimum 10 parts water.
- Diluted product can be sprayed with seed or sidedressed with seed.
- Product can be injected into irrigation spray rigs with water or as a concentrate when water is followed to reach 10:1 dilution.
- Recommended rate 5 gallons per acre (undiluted) per application.

Compost Accelerator and Nutrition Builder to Compost

- 1 part Pacific Natural®* to 50 parts water when watering pile.

In general, the addition of extra water is not harmful.

Note: if water supply is above neutral (PH 7.0), consult the manufacturer before application.
