

PACIFIC NATURAL BRAND

Liquid Organic Fresh Fish Fertilizer

275 gallon IBC/tote
1045 litres

OMRITM
L i s t e d

**GREAT FOR AFTER HARVEST APPLICATION
NOW OR IN THE FALL**

This completely natural, organic fertilizer

- is a natural biostimulant
- does not leach into watertable
- provides time-release effect in soil
- can be used as a root feeder, soil, conditioner, foliar spray and composting

Pacific Natural, which helps rebuild depleted soil, creates healthier and stronger plants and improves crop yields, is produced at our plant in Delta, B.C. Pacific Natural is completely natural, other than the addition of food grade phosphoric acid needed for stabilization. PN can be applied through conventional methods including spray rigs, drip irrigation systems, and aerial spraying.

Pacific Natural is a cold processed, enzymatically digested fresh fish fertilizer produced from fresh Pacific bio products from local fish processing operations.

**55 Gallon Drums
209 litres**

APPLICATION RATE:

5-10 gallons of undiluted Pacific Natural per acre (diluted at least 10 parts water to 1 part PN, 3 times per year)
